SPECIAL BASQUE COURSES FOR PARENTS

We want to organize a practical Basque language course for families at the school during the 2025-2026 academic year. AEK has developed a special methodology for parents to learn Basque in collaboration with UEMA.

What will we do in this course?

- We will learn words related to our daughters' and sons' studies.
- We will learn basic vocabulary to talk with other families in the school environment.
- We will practice to hold conversations in Basque with Basque-speaking families.

The course is organized within **The Basque Language and Multiculturalism** project. Through this project, we are working in dozens of towns to promote the use of Basque in schools and to strengthen relationships between different cultures.

For whom?

To parents who do not understand Basque.

When?

From October 2025 to June 2026.

Where?

At the school itself.

Schedule:

While the children are in class.
Twice a week.

To register:

- In the school secretary's office.
- Online: labur.eus/etorriEUS
